

# Unlicensed Assistive Personnel Online Curriculum

## Moodle Version 3.5

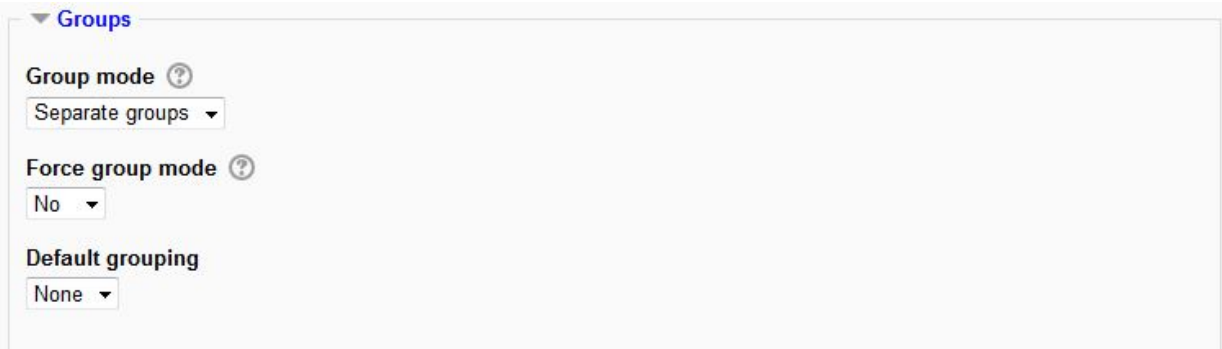

### Creating Groups

**Section One:** There are default settings that are used when the facility site is created. This section is for information only or if you want to change the Group settings at a later date.

See [Section Two](#) for how to create Groups in a Module.

Open the course.

Open the **Administration** block if it is not already open. Open the **Course administration** dropdown if it is not already open. Select the **Edit settings** option from the dropdown list. The Edit course settings screen will appear. Scroll down the page until you locate the **Groups** section near the bottom of this page. Open this section by clicking on the right facing diamond. The topic will open and it will look like this:

The screenshot shows the 'Groups' settings section in Moodle. It contains three dropdown menus: 'Group mode' set to 'Separate groups', 'Force group mode' set to 'No', and 'Default grouping' set to 'None'. Each dropdown menu has a question mark icon to its right.

Separate groups is the default setting.

This setting has 3 options:

- No groups - There are no sub groups, everyone is part of one big community
- Separate groups - Each group member can only see their own group, others are invisible
- Visible groups - Each group member works in their own group, but can also see other groups

The group mode defined at course level is the default mode for all activities within the course. Each activity that supports groups can also define its own group mode; however, **if the group mode is forced at the course level, the group mode setting for each activity is ignored.**

**NOTE:** The default setting for the site is set to prevent students from viewing the participant list. This can be updated as needed.

After you have made these selections scroll to the bottom of the page and save your changes.

## How to Create a Group with a Password

**NOTE: If you have created groups and added students to the group and the gradebook does not display a dropdown for your groups check the setting above to make sure either Separate or Visible groups is selected. If the setting is No groups, your groups will not display.**

### Section Two: Creating Groups with a Password

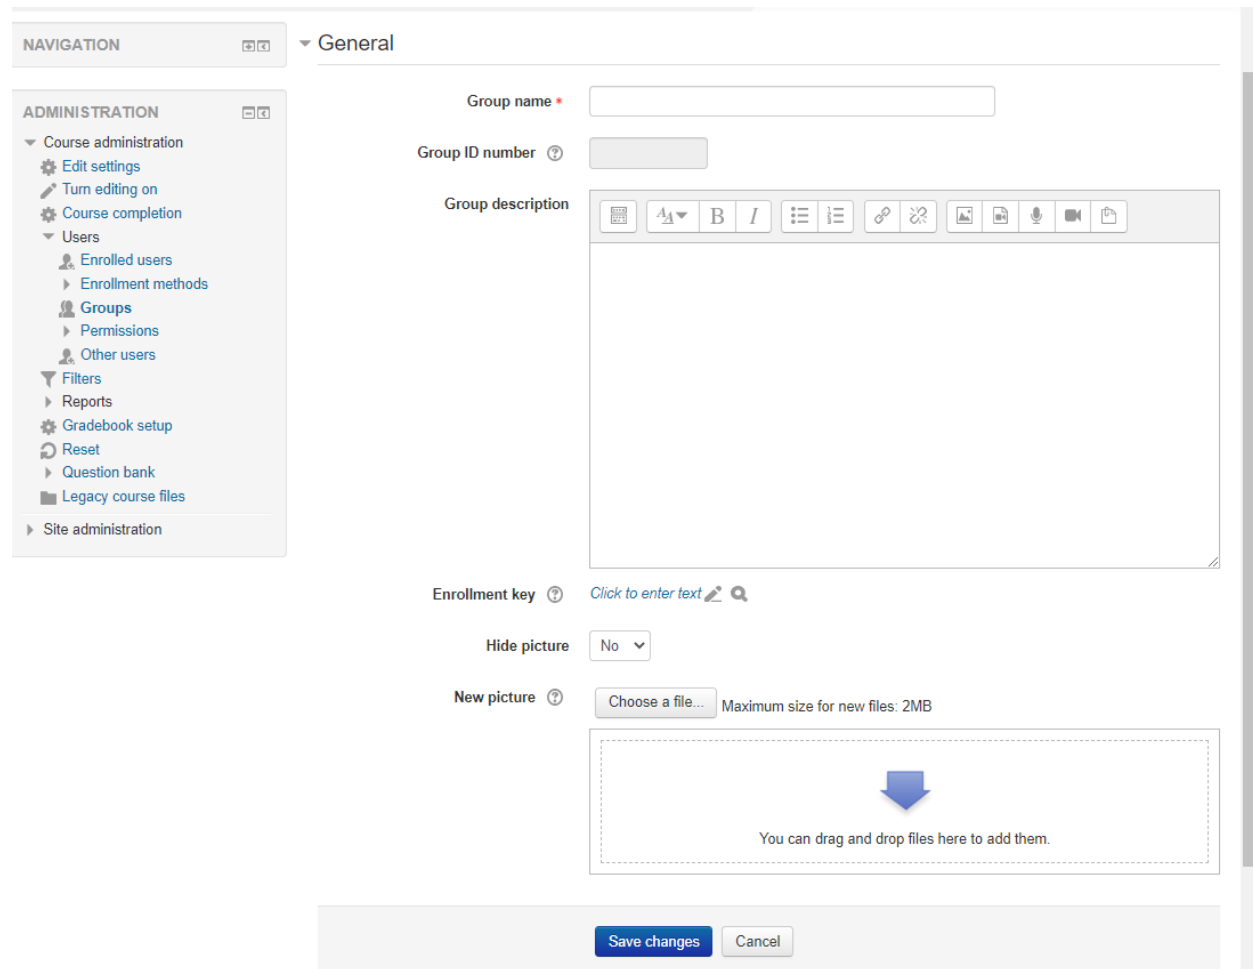

Open the course. Open the **Administration** block if it is not already open. From the **Course administration** dropdown select **Users** and then select **Groups**. The following screen will appear:

The screenshot displays the Moodle course administration interface for the course "UAP-Nurse Assistant". The breadcrumb trail is "Home > Courses > UAP-Nurse Assistant > Users > Groups". The left sidebar shows the "ADMINISTRATION" menu with "Groups" highlighted. The main content area shows "UAP-Nurse Assistant Groups" with a list of groups containing "Hermann Area District Hospital (3)". Below the list are buttons for "Edit group settings", "Delete selected group", "Create group", "Auto-create groups", and "Import groups". A blue arrow points to the "Create group" button. The "Members of:" section is empty.

The first time you create a group only the **Create group** button will be active. Select this button.

## How to Create a Group with a Password

The following screen will appear:

The screenshot shows the Moodle 'General' settings page for creating a group. On the left is a navigation menu with 'ADMINISTRATION' expanded to show 'Users' > 'Groups'. The main form includes: 'Group name' (text input), 'Group ID number' (text input), 'Group description' (rich text editor with a toolbar), 'Enrollment key' (text input with a 'Click to enter text' link and a magnifying glass icon), 'Hide picture' (dropdown menu set to 'No'), and 'New picture' (file upload button with a 'Maximum size for new files: 2MB' note and a dashed box for file drops). At the bottom are 'Save changes' and 'Cancel' buttons.

Enter a name for the group.

Group ID number will be addressed later.

Group description is not required. However, if there are multiple groups and multiple instructors it is advisable to provide specific unique information related to the group's purpose and requirements for students to be added to the group.

**Enrollment key** is a password. This option helps instructors manage student enrollment in the group. **It also allows students to not only enroll themselves in the course but specifically into the correct group.** To enter a password click on the "Click to enter text" link. The requirements for a password are: **The password must be 8 characters long and include one upper and one lower case letter, one number, and one special character.** Once you have entered the password it will turn to asterisks. To reveal the password, click on the magnifying glass icon and it will be revealed. To edit the password, click on the pencil icon. Be sure and **save** your changes.

## How to Create a Group with a Password

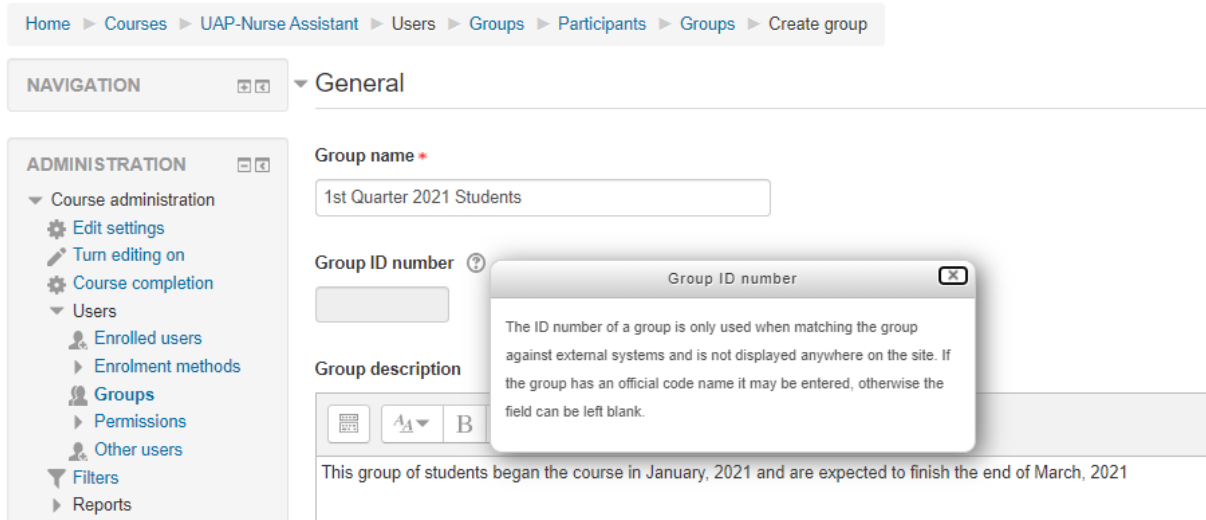

Below is a completed screen:

The screenshot shows the Moodle 'General' settings page for creating a group. On the left is a navigation menu with 'ADMINISTRATION' expanded to 'Groups'. The main form includes:

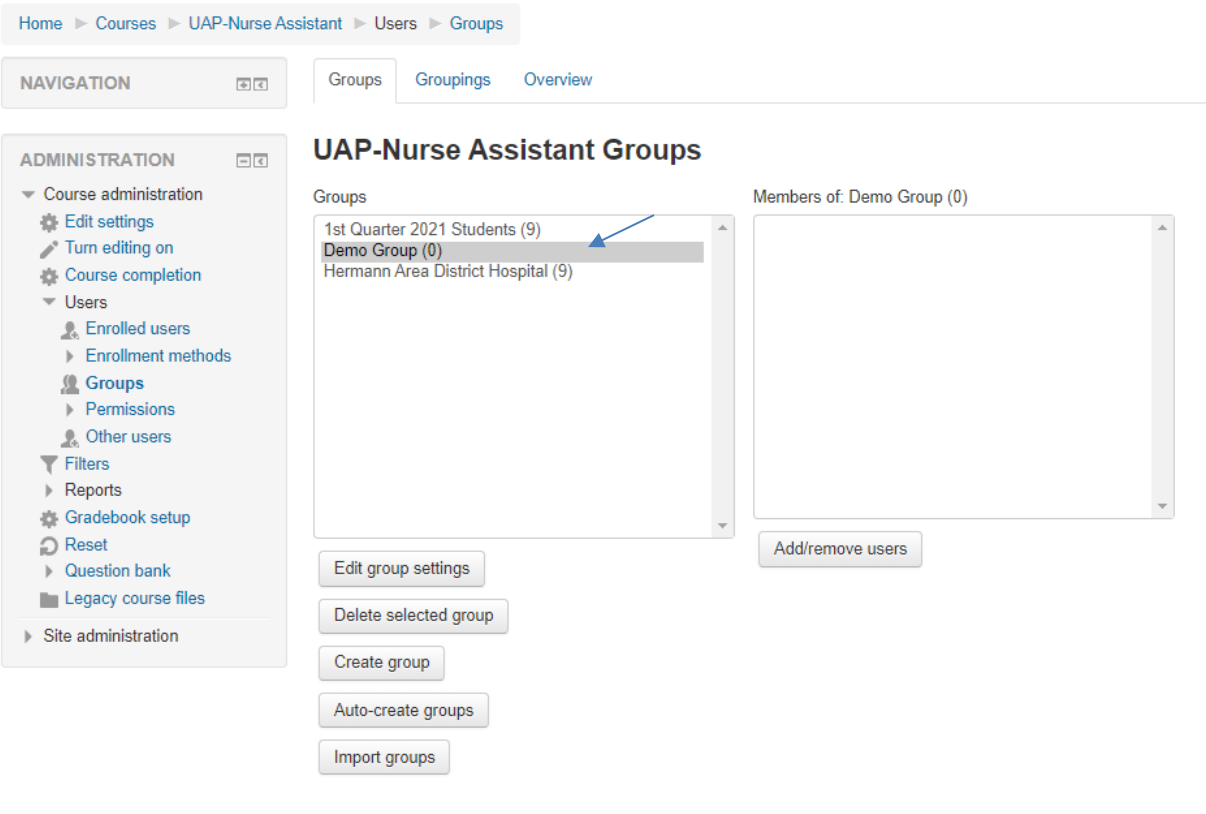

- Group name \***: A text input field containing 'Demo Group'. A blue arrow points to this field.
- Group ID number**: A greyed-out text input field. A blue arrow points to a question mark icon next to it.
- Group description**: A rich text editor containing the text 'This group is a test group.'. A blue arrow points to the text.
- Enrollment key**: A field with a masked password '.....' and a search icon. A blue arrow points to the search icon.
- Current picture**: A dropdown menu set to 'None'.
- Hide picture**: A dropdown menu set to 'No'.
- New picture**: A 'Choose a file...' button and a note 'Maximum size for new files: 2MB'. Below is a dashed box with a downward arrow and the text 'You can drag and drop files here to add them.'.
- Buttons**: 'Save changes' and 'Cancel' buttons at the bottom. A blue arrow points to the 'Save changes' button.

**NOTE:** When you click on a question mark in Moodle it will give more information on that option. The screen displayed below includes more information regarding the Group ID number option and how you might use it.

# How to Create a Group with a Password

After the group has been created and saved you will be returned to the main Groups screen shown below:

The new group has been created and is ready for students to be added to it either by direct

## How to Create a Group with a Password

enrollment by the student or manually by an instructor. Notice the (0) beside the Demo Group. There are no students currently in that group.

If you choose the Overview tab (see screen below) the following screen will appear. This screen gives you a list of all of the groups that have been created and the students that have been assigned to each group.

Home ► Courses ► UAP-Nurse Assistant ► Users ► Groups ► Overview

NAVIGATION: Groups, Groupings, Overview

ADMINISTRATION: Course administration, Users, Groups

### UAP-Nurse Assistant Overview

Filter groups by: Grouping: All Group: 1st Quarter 2021 Students

**[Not in a grouping]**

Groups (1)	Group members	User count
1st Quarter 2021 Students	Rick Abrahms, Ian Bates, Ted Dalton, Jane Doe, Jill James, Thomas Kirk, Janet Owens, Zarah Perkins, Kathy Rogers, Donald Smith	10

In the above example the information has been **filtered** by using the **Filter groups by:** option and choosing the name of a specific group. If you have multiple groups all of them will display by default when you choose the Overview tab. To return to the Groups page select the Groups tab.

If you use the breadcrumbs at the top of the screen and choose [UAP Nurse Assistant](#) it will take you to course content section page. From the **People** block select the [Participants](#) link and the following screen (partial) will appear:
