

Automotive Technology Online Curriculum

Multiple Account Creation Option

In order to access the Automotive Technology Online Curriculum site a user account needs to be created. The Auto Course Administrator or staff member can complete this process.

Upload users – Multiple account creation - manually by ACA Admin or staff

If you want to create multiple user accounts in one process, use the **Upload users** functionality. You will need to create a text file with specific information about each new user. You need to format your text file as follows:

- The first record of the file is special and contains a list of fieldnames. This defines the format of the rest of the file.
- Each line of the file contains one record.
- Each record is a series of data separated by commas.

Required fieldnames: these fields must be included in the first record (row of data), and defined for each user

username, firstname, lastname, password, email

An example of a CSV file to be uploaded is shown below:

username	firstname	lastname	password	email	city
ricka	Rick	Abrahms	IMS*crr10	rickabrahms@internet.com	Hometown
ianb	Ian	Bates	IMS*crr1	ianbates@internet.com	Hometown
tedd	Ted	Dalton	IMS*crr2	teddalton@internet.com	Hometown
jillj	Jill	James	IMS*crr3	jilljames@internet.com	Hometown
thomask	Thomas	Kirk	IMS*crr4	thomaskirk@internet.com	Hometown
elizabethp	Elizabeth	Miller	IMS*crr5	elizabethmiller@internet.com	Hometown
janeto	Janet	Owens	IMS*crr9	janetowens@internet.com	Hometown
zarahp	Zarah	Perkins	IMS*crr6	zarahperkins@internet.com	Hometown
kathyr	Kathy	Rogers	IMS*crr7	kathyrogers@internet.com	Hometown
donalds	Donald	Smith	IMS*crr8	donaldsmith@internet.com	Hometown

Default fieldnames: these are optional - if they are not included then the values are taken from the primary admin

institution, department, city, country, lang, auth, timezone

Create your file of student information. If you create it in Excel or a Word table, make sure that you save the information as a **.csv** file.

Multiple Account Creation Option

Log in to the CRR site.

From the front page, open the Administration block if it is not already open. Within the Administration block open the **Site administration** block, and then:

select **Users**,
then **Accounts**,
then **Upload users**.

A screen shot of the path is displayed below:

Dashboard ► Site administration

NAVIGATION ☰ 🔍

- Dashboard
- 🏠 Site home
- ▶ Site pages
- ▶ Courses

ADMINISTRATION ☰ 🔍

- ▼ Site administration
 - ▼ Users
 - ▼ Accounts
 - ⚙️ Browse list of users
 - ⚙️ Bulk user actions
 - ⚙️ Add a new user
 - ⚙️ Cohorts
 - ⚙️ **Upload users**

When you click on **Upload users** link the following information will display on the right side of the screen:

Multiple Account Creation Option

Upload users ?

Upload users

Note the file title in the box below the **Choose a file ...** button. The file has been successfully added.

Click the **Upload users** button.

An **Upload users preview** screen will appear. Double check the data. There are many options below the data for you to choose from. The most important is the first one **Upload type**.

Multiple Account Creation Option

There are four options:

- Add new only, skip existing users**
- Add all; append number to username if needed**
- Add new and update existing users**
- Update existing users only**

For this example, we are going to choose **Add new only, skip existing users**. All of these students should be new. If by chance you have used an existing username in your new list, the existing username will display in blue on this screen. That way you may cancel this process, correct your data, and upload your corrected file.

The screenshot displays the 'Upload users preview' screen. On the left is a navigation sidebar with 'NAVIGATION' (Dashboard, Site home, Site pages, Courses) and 'ADMINISTRATION' (Site administration, Users, Accounts, Browse list of users, Bulk user actions, Add a new user, Cohorts, Upload users, Upload user pictures, Permissions, Courses, Grades, Analytics, Competencies, Badges, Language, Plugins, Appearance, Front page, Reports). The main content area shows a table of user data:

CSV line	username	firstname	lastname	password	email	city	Status
2	ricka	Rick	Abrahms	IMS*uap10	rickabrahms@internet.com	Hometown	
3	ianb	Ian	Bates	IMS*uap1	ianbates@internet.com	Hometown	
4	tedd	Ted	Dalton	IMS*uap2	teddalton@internet.com	Hometown	
5	jillj	Jill	James	IMS*uap3	jilljames@internet.com	Hometown	
6	thomask	Thomas	Kirk	IMS*uap4	thomaskirk@internet.com	Hometown	
7	elizabethp	Elizabeth	Miller	IMS*uap5	elizabethmiller@internet.com	Hometown	
8	janeto	Janet	Owens	IMS*uap9	janetowens@internet.com	Hometown	
9	zarahp	Zarah	Perkins	IMS*uap6	zarahperkins@internet.com	Hometown	
10	kathyr	Kathy	Rogers	IMS*uap7	kathyrogers@internet.com	Hometown	
11	donalds	Donald	Smith	IMS*uap8	donaldsmith@internet.com	Hometown	

Below the table is a 'Settings' section with two dropdown menus: 'Upload type' (set to 'Add new only, skip existing users') and 'New user password' (set to 'Create password if needed and send via email'). A 'Collapse all' link is also present.

Select **Add new only, skip existing users** and scroll to the bottom of the screen and select **Upload users**.

The following screen will appear:

Users created: 10
Users having a weak password: 0
Errors: 0

Continue

You will note the analysis of the upload that is centered at the bottom of the screen. Ten users were created. All of the new users' names are in blue. No students have weak passwords and there were no errors. If you click on a student's user name it will take you to their profile page. To return to this screen use your browser back button.

Select the **Continue** button.

You are taken back to the Upload users screen and you are ready to upload another file. If you are finished uploading students use the breadcrumbs at the top of the site and return home.

To review the uploaded information:
from within the Administration block:

- select **Site administration**,
- select **Users**,
- select **Accounts**,
- select **Browse list of users**.

The list of all users in the site will display. A filter has been added to the list below so only the new accounts display. Adding the filter @internet.com, the unique email for this group, allows only these new students to display.

Multiple Account Creation Option

The screenshot shows the 'ADMINISTRATION' sidebar on the left, with a blue arrow pointing to the 'Browse list of users' option. The main content area has a search bar with 'contains' selected and an 'Add filter' button. Below the search bar is a 'Show more...' link. The 'Active filters' section shows a filter: Email address contains "@internet.com". Below this are buttons for 'Remove selected' and 'Remove all filters', with a blue arrow pointing to the latter. At the bottom of the filter section is an 'Add a new user' button. The main area displays a table of users with columns for First name / Last name, Email address, City/town, Country, Last access, and Edit.

First name / Last name	Email address	City/town	Country	Last access	Edit
Donald Smith	donaldsmith@internet.com	Hometown	United States	Never	X [eye] [gear]
Elizabeth Miller	elizabethmiller@internet.com	Hometown	United States	Never	X [eye] [gear]
Ian Bates	ianbates@internet.com	Hometown	United States	Never	X [eye] [gear]
Janet Owens	janetowens@internet.com	Hometown	United States	Never	X [eye] [gear]
Jill James	jilljames@internet.com	Hometown	United States	Never	X [eye] [gear]
Kathy Rogers	kathyrogers@internet.com	Hometown	United States	Never	X [eye] [gear]
Rick Abrahms	rickabrahms@internet.com	Hometown	United States	Never	X [eye] [gear]
Ted Dalton	teddalton@internet.com	Hometown	United States	Never	X [eye] [gear]
Thomas Kirk	thomaskirk@internet.com	Hometown	United States	Never	X [eye] [gear]
Zarah Perkins	zarahperkins@internet.com	Hometown	United States	Never	X [eye] [gear]

When you remove this filter all of the accounts in the site will display.

Multiple Account Creation Option

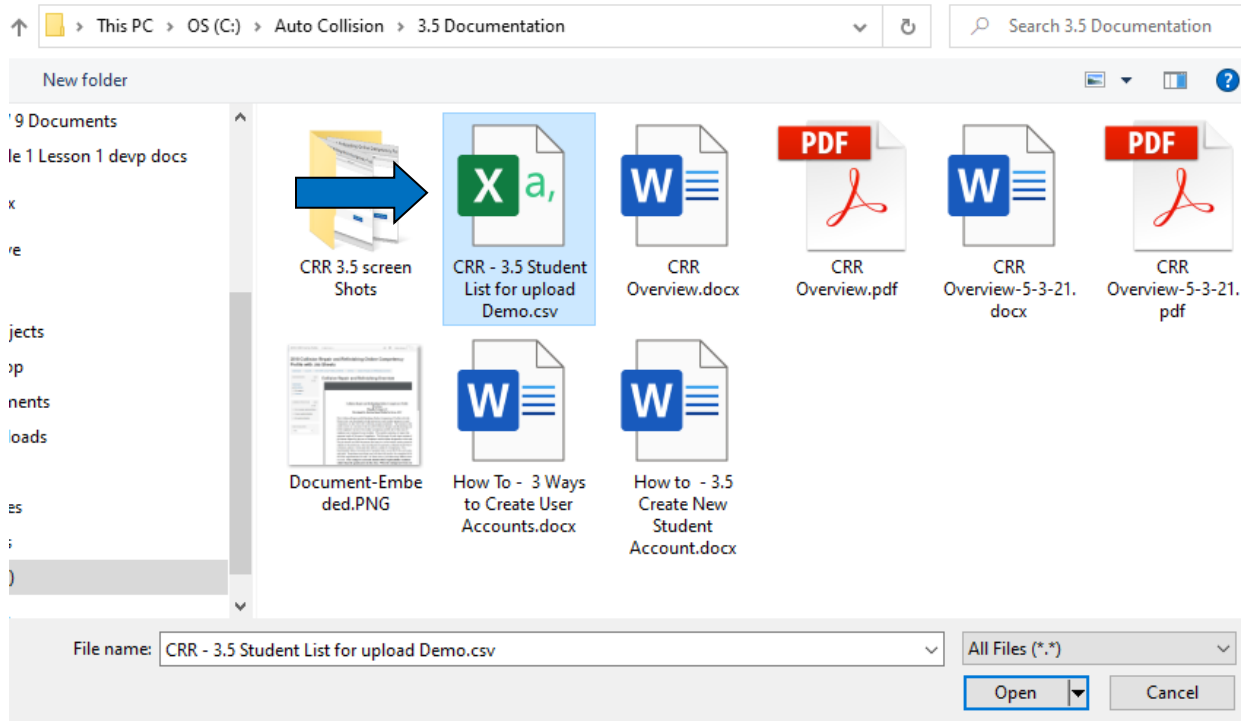

Choose a file process: (Alternative process)

If you are unable to drag and drop your user file then select the **Choose a file** button located above the Drag and Drop area. The file picker screen will display. Choose **Upload a file** from the left menu. Next to the Attachment title select the **Choose File** button.

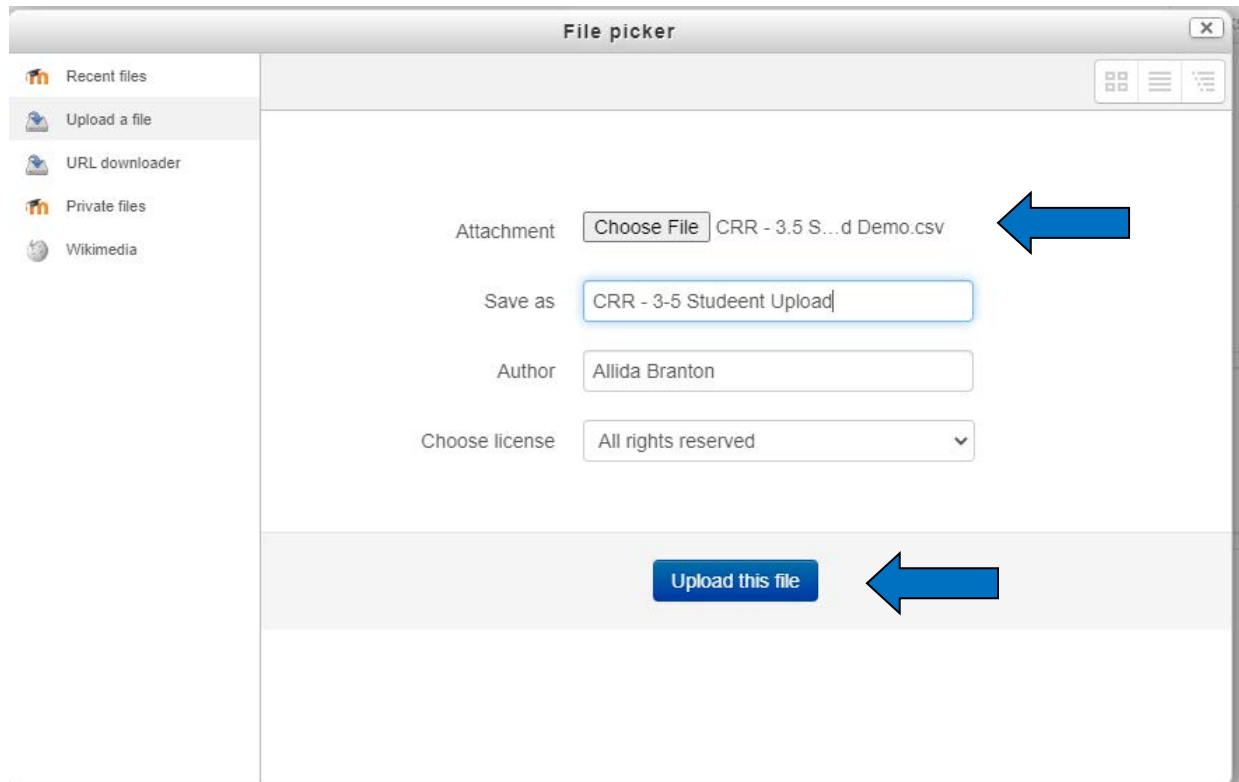

You will be returned to your hard drive. You will need to search for the csv document, select it, and then select the **Open** button.

Multiple Account Creation Option

You will be returned to the File Picker and the name of the file will be located next to the **Choose File** button. Add a Save as description for screen readers. The screen will look like this:

Multiple Account Creation Option

Select the **Upload this file** button and the file will be uploaded to the site. The screen will look the same as if you used the drag and drop process.

Follow the directions above to complete the bulk user upload process.
